

Let's-Read-and-Find-Out Science Series (Harper-Collins) — Updated 02/2009

Note that those working with Cycle Three or middle-school resource students should not, in general, order the asterisked (\*) texts, as these are most appropriate for Cycle One students.

Texts of particular interest to Cycle Three and middle-school resource students are underlined.

The remaining (unmarked) texts are of good general use in the elementary Cycles.

For schools wishing to update their collections, newest titles are CAPITALIZED.

<u>Title:</u>	<u>ISBN-13</u>
Animals in Winter	978-0064451659
Ant Cities	978-0064450799

<u>Zipping, Zapping, Zooming Bats</u>	978-0064451338

\*\*\*\*\* Ordering Information \*\*\*\*\*

The following accredited bookstore has a good track record for shipping this series to school boards. Many titles are also in stock, for those within driving distance of the store.

Livres Babar Books (Pointe Claire and Westmount stores; province-wide shipping)

Please note that, as discussed during *SoundPrints* workshops, *SoundPrints* does not have commercial ties with Harper-Collins. It is essential that *SP* literacy resources be used in the context of content-rich reading; however, if you have access to rich information texts other than those listed above, by all means, use these as substitutes or complements.

---

Additional note to Cycle 3 and high-school teachers: As discussed during recent workshops, an excellent on-line source of articles that combine current events with the sciences (both life and physical) is the following: [www.sciencenewsforkids.org](http://www.sciencenewsforkids.org)
